GuardXel

— ULTIMATE DEVICE PROTECTION —

Ultimate Device Protection

We're Here to Make a Difference.

This deck summarizes our journey, our product, and how we are ready to grow with you to create meaningful impact.

Let’s Get Started

Our Journey Began

With a Simple Idea

With over a decade of sourcing expertise, brand building in the Middle East, deep on-ground insights, we discovered a clear gap: India lacked a truly premium, reliable, high-quality gadget protection experience.

That realization became our spark.

GuardXel was created out of necessity — shaped by real users, refined through continuous learning, and built to elevate how people protect and experience their devices.
What began as an idea has grown into a solution engineered for precision, impact, and long-term value.

Improved Efficiency

Continous Growth

The Market Opportunity

A Rapid Expanding Category, Tempered Glass V/S Film - Current Market Split

Current Market

- Tempered Glass : 91% of Sales
- Film (TPU / EPU / PET / TPH / Hydrogel) : 9% and rising
- 2024 Market Size : 1,930 million USD
- Forecast 2030 : 3,463 million USD (CAGR 6.79%)
- Global Share: India accounts for 3.5-4.7% of global screen protector market.
- Source: Deep Market Insights & Grand View Research

Why This Matters

- Accessory purchases are increasingly shifting toward premium experiences
- The market is large, fragmented, and ready for a brand that brings quality, consistency, and trust.
- Growth driven by curved screens, premium devices, and demand for better touch feel.

Current Market Reality

Low Tier (₹40–₹150) Basic PET/TPU

Yellowing, bubbles, poor clarity,High dissatisfaction, low repeat usage

Mid Tier (₹150–₹280) Generic hydrogel

Inconsistent adhesive and finish

Premium Tier (₹300–₹800+)EPU / Self-healing

The market is not getting premium.

Tempered Glass (₹40–₹600)

Highly commoditized, Low margins for retailers
High breakage

Consumer Problem

1. Lack of Awareness

- Consumers don't understand film types or quality differences.
- Decisions are driven by the seller, not the buyer.

2. Price Wars Have Damaged the Category

- Yellowing
- Poor touch response
- No real protection

A Spoiled Impression

Consumers assume "films are bad" because they've only experienced cheap, low-grade ones.

The GuardXel Advantage

Premium Quality Without Compromise

- High-grade EPU engineered for clarity,
- durability, and impact absorption.
- Zero shortcuts in material, adhesive, or finish.
- Competitive pricing — but never in the race to the bottom.

A Brand Built On Trust

- Consistent performance
- Strong retailer margins
- Better customer satisfaction
- Repeat business and word-of-mouth growth

Introducing The GuardXel
Precision Plotter

Advanced. Compact. Engineered for Precision.

- Designed for high-precision cutting upto premium 9H high-hardness film
- Automatic blade length & pressure adjustment innovation, Reducing installation time & Ensuring consistent cutting accuracy
- Stepless micron-level control Precision up to 0.1 mm
- On-Demand Cutting for Mobile, Tablets, Laptops, Watches for screen size up to 16 Inch & Back Skins
- Car Display Screen Layouts

The GuardXel Film Ecosystem

Three Premium Film Grades.
One Unified Standard of Quality

GuardXel SHIELD
180um TPU

GuardXel EDGE 250um
EPU

GuardXel TITAN
350um EPU

Clear

Matte

Privacy Matte

Sheet Size 8", 10", 14" & 16"

GUARDXEL SHIELD
(TPU 180 Micron)

Flexible. Clear. Everyday Protection.

All Mobile Phones , Tablets, Laptop, Watches & Car Displays

Specialized Back Protection Film (10-inch)

- Designed for plastic, ceramic, metal, glass, PVC
- High-strength adhesive for minimal peel-off
- Case-friendly — stays intact even with tight cases

180 micron TPU – Strongest Entry Level Film Sheet

4 Layers of TPU with 3 Layers of Premium Gum provide 2.5KG of impact resistance in 1M height drop test

Self Healing - All minor scratches will be self healed providing clean and elegant look everytime

Variants : Clear, Matte & Privacy Matte

Sizes : 8" , 10" 14" & 16"

GUARDXEL EDGE
(EPU 250 Micron)

Enhanced Durability. Superior Feel.

250 micron EPU - Strongest Impact Absorption Capability

5 Layers of EPU with 4 Layers of Premium Gum provide 3.5KG of impact resistance in 1M height drop test

Quick Healing - All major scratches will be Immediately healed providing clean and elegant look every time

Variants : Clear & Matte

Sizes : 8"

EPU is an advanced version of TPU with highest degree of scratch resistance and when it combined with 250 Micron thickness, the Impact Absorption is also of great competency

GUARDXEL TITAN
(EPU 350 Micron)

Maximum Protection. Zero Compromise.

350 micron EPU – Strongest Impact Absorption Capability

7 Layers of TPU with 5 Layers of Premium Gum provide 5.5KG of impact resistance in 1M height drop test

Quick Healing – All major scratches will be Immediately healed providing clean and elegant look every time

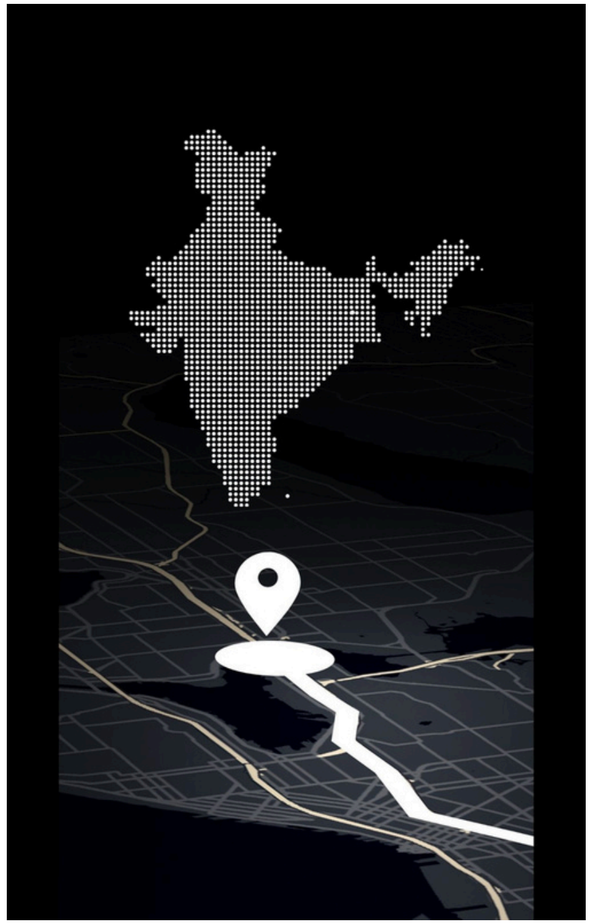

Variants : Clear & Matte

Sizes : 8"

EPU is an advanced version of TPU with highest degree of scratch resistance and when it combined with 350 Micron thickness, the Impact Absorption “IS UNREAL”

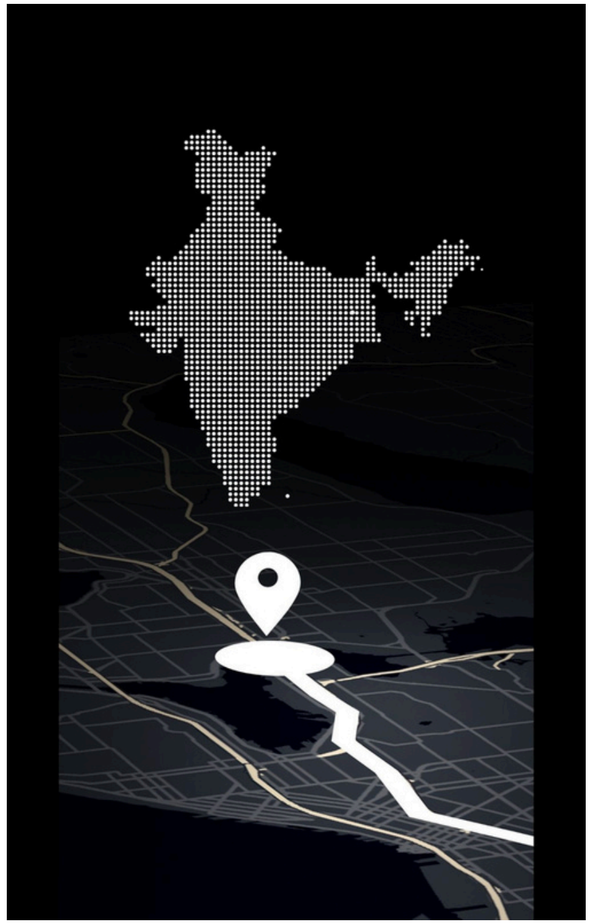

Why GuardXel Film Stand Apart

Engineered for Real-World Use

- High-grade adhesives for long-lasting grip
- No yellowing, no peeling, no bubbles
- Smooth touch response
- High transparency and anti-fingerprint option
- Car Display Screen Layouts
- Perfect fit with GuardXel Plotter’s 0.1 mm precision

Our Promise: 1-Year Unlimited Replacement Warranty

Unlimited Protection. Unlimited Peace of Mind.

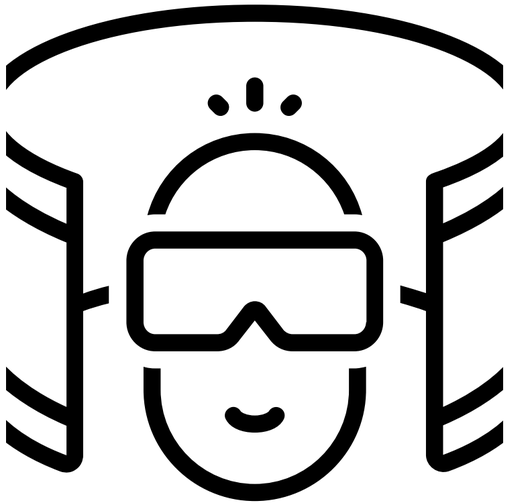

1 Year Unlimited Film Replacement For Any Issue. Any Damage. Any Usage. Just a Minimal Replacement Fee.

- Only Requirement is the applied film should remain on the screen while claiming warranty. This will be peeled off by the salesman - Only then the replacement will be in effect.
- No questions asked
- No conditions
- No hidden clauses
- Always a fresh screen, anytime you want

This is not just a warranty — it's a **new standard of customer experience.**

The Real Cost of Traditional Tempered Glass

A Reality Check !

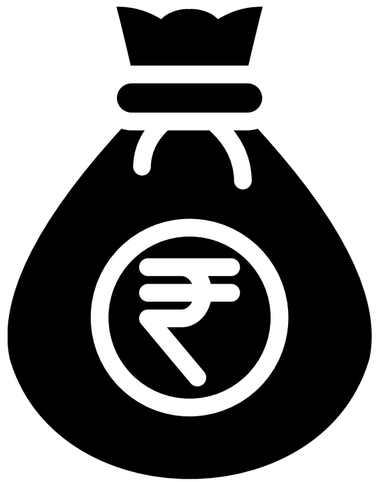

A good quality tempered glass costs ₹500–₹900.
In one year, the average user replaces it 4–5 times due to:

- Cracks
- Chips
- Dust entry
- Yellowing
- Touch issues
- Poor installation

Total annual spend:
₹2,000–₹4,500
with **zero warranty** and **zero brand accountability.**

The GuardXel Advantage: One-Time Cost, Unlimited Value

Our Pricing (One-Time Purchase + Minimal Replacement Fee)

FILM TYPE	RRP – INR	WARRANTY RRP
SHIELD	499	99
EDGE	849	149
TITAN	1599	199
